## § 1242.05

### GENERAL

#### § 1242.01 Expenses solely related to freight service and passenger service.

The Uniform System of Accounts for Railroad Companies (49 CFR part 1201) requires that carriers assign directly to freight service or to passenger service, including allied services, the expenses, taxes, and purchased services incurred solely for the benefit of either freight or passenger service.

#### § 1242.02 Common expenses.

The Uniform System of Accounts also requires that carriers assign to common expense accounts the remaining expenses, taxes and purchased services which are not solely related to either freight or passenger service. The following instructions govern the separation of common expense accounts between freight and passenger services.

#### § 1242.03 Made by accounting divisions.

The separation shall be made by accounting divisions, where such divisions are maintained, and the aggregate of the accounting divisions reported for the quarter and for the year.

#### § 1242.04 Special tests.

When the separation of common expense accounts between freight and passenger services is based upon special tests or service unit factors, such tests shall be made at sufficiently frequent intervals to represent actual operating conditions. The service unit factors used are those of the reporting period.

#### § 1242.05 Operating expense account number notation.

(a) The operating expense account numbers consist of a six-digit coding structure divided into three two-digit groups. The first two-digit group denotes natural expenses; the second group denotes activities/subactivities for freight, passenger or common service; and the third group signifies applicable function assignment.

(b) For reporting purposes, four natural expense categories are utilized.

The categories are: salaries and wages (account 11-XX-XX); material, tools, supplies, fuels and lubricants (account 21-XX-XX); purchased services (accounts 31-XX-XX to 41-XX-XX, inclusive); and general (accounts 61-XX-XX to 65-XX-XX, inclusive, 51-XX-XX, 52-XX-XX, 53-XX-XX and 12-XX-XX).

(c) The symbol "XX" in the first two-digit group is used throughout the separation instructions to denote more than one natural expense associated with the same activity/subactivity-function account structure. For reporting purposes, the natural expense account numbers represented by "XX" include:

11—Salaries and wages;

21—Materials, tools, supplies, fuels, and lubricants;

30 or 41—Purchased services;

30—Summation of certain purchased service accounts;

41—Other purchased services;

61—General.

(d) The "30" natural expense designation indicates a summation of specific purchased service accounts that are reported in total rather than individually. The specific accounts under the way and structures activity except for administration functions include 39-1X-XX, repairs billed by others, Dr.; 40-1X-XX, repairs billed to others, cr.; and 41-1X-XX, other purchased services. For the equipment activity excluding administration functions, the "30" designation denotes the summation of 39-2X-XX and 41-2X-XX.

(e) The "41" natural expense designation (other purchased services) is the purchased service category of the "XX" code for the following:

(1) Way and structures activity administration—function accounts,

(2) Equipment activity administration—function accounts,

(3) Transportation activity expense accounts, and

(4) General and administration activity expense accounts.

(f) The "61" general natural expense designation is applicable to all accounts with the "XX" symbol except transportation, train and yards accounts (XX-(33/43/53)-XX).

(g) The natural expense account number "50" is used throughout the separation instructions to indicate the
